Performance Upgrade & Oem Replacement

TABLE OF CONTENTS

FOR CARS

03
EXHAUST SYSTEM

Complete bumper-to-bumper performance system optimized for maximum horsepower gains, reduced backpressure, and aggressive track-ready acoustics

04
CAT-BACK EXHAUST

Performance assembly extending from the catalytic converter back, engineered to optimize airflow, unleash torque, and deliver a refined acoustic output

05
AXLE-BACK EXHAUST

Direct bolt-on upgrade replacing the rear muffler section for enhanced exhaust note and sleeker rear profile without altering factory emissions piping

06
MUFFLER

Engineered for optimal backpressure control and aggressive acoustic tuning.

08
EXHAUST TIPS

Precision-crafted tailpipe exits designed to enhance rear-end aesthetic and exhaust note clarity.

FOR MOTOR CYCLES

12
EXHAUST SYSTEM

Heavy-duty 2-into-1 and 2-into-2 system engineered to maximize V-twin torque, deepen the signature rumble and reduce overall frame weight

15
MUFFLER

Ultra-lightweight slip-on canister designed for high-RPM exhaust flow, crisp throttle response, and a razor-sharp track exhaust note
